Lendix, 32nd in the global ranking of the 2016 FINTECH100 by KPMG & H2 Ventures

Each year, KPMG and H2 Ventures develop a renowned world ranking of the 100 global Fintech leaders. This ranking selects companies that have demonstrated success in capitalizing on new technologies to revolutionize the world of financial services and propose a superior and innovative experience. Established by a panel of Fintech experts worldwide, Lendix has been awarded the 32nd position in the global ranking and is the 1st French company to appear in the list.

The list is organized in two categories:

- The ranking of the “Leading Established Fintech” - that gathers the best 50 established Fintech start-ups and most recognized organizations for their expertise internationally. Lendix is part of this ranking.
- The list of “Emerging Stars” – which brings together 50 emerging start-ups in 2016 distinguished for their ability to innovate differently.

These start-ups were selected on the following criteria: the amount of funds raised, the proportion of funds raised, the geographic location, the attractiveness of their market and consumers and the “X Factor” of the jury, which evaluates the level of innovation in the area of the product, service, customer experience and business model.

“It's a real honor to be in the top 50 of this ranking, and even more so to be the first French company to be included.” said Olivier Goy, Founder and President of Lendix.
